Environmental Policy

Environmental Responsibility Through Innovative Products, Processes and People

Air Monitor is committed to environmental stewardship and the protection of the environment through innovative products, efficient processes, and engaged employees. We have established, implemented, and maintain an Environmental Management System (EMS) in accordance with ISO 14001:2015.

We conduct our operations in an environmentally responsible manner while delivering products that meet or exceed customer requirements, regulatory standards, and contractual obligations.

Our Commitments

We are committed to:

- **Compliance Obligations**
  Fulfilling all applicable environmental legal requirements and other compliance obligations
- **Protection of the Environment**
  Protecting the environment, including preventing pollution and minimizing environmental impacts associated with our activities, products, and services
- **Sustainable Resource Use**
  Promoting the efficient use of natural resources, including energy and materials, and reducing waste
- **Continual Improvement**
  Continually improving environmental performance and the effectiveness of the EMS through objective setting, monitoring, internal audits, and management review

Approval

This Environmental Policy is approved and endorsed by top management and is effective as of the date below.
